Business Administration with a Concentration in Accounting (ACC.ABA)

Associate in Business Administration

Business, Management, Marketing and Technology

The Associate Degree in Business Administration Degree with a concentration in accounting offers a cognitive foundation in areas fundamental to business studies such as accounting, economics and mathematics.

Students elect the Associate in Business Administration Degree for various reasons that may include further study toward a bachelor degree or as preparation for CPA certification or MBA programs.

Before taking business courses, students should consult a counselor since the requirements of four-year colleges and universities, both private and public, vary considerably.

Graduating from this program does not automatically qualify the student for the Michigan Transfer Agreement (MTA) endorsement. Students in this program seeking MTA endorsement should work closely with an OCC counselor to identify classes from the MTA List which apply to the endorsement and to degree requirements.
