

Health Care Administration (HCA.AAS)

Health Care Administration (HCA.ONL.AAS) - 100% Online

Associate in Applied Science

Health Sciences

Southfield Campus

This program leading to an associate in applied science degree is designed to prepare students for a career in health care administration. This flexible program will enable students with health care experience to supplement previous experience and develop new skills necessary for upward mobility. Graduates of this program will be prepared as nursing home administrators, nursing home administrative personnel, department heads in hospitals and administrative personnel for public and private health facilities, including ambulatory clinics and assisted living facilities.

Courses in this program are also available to those individuals who are required to have continuing education credits in order to maintain their nursing home licensure. Courses prefixed HCA 1000 through 2300 are approved for continuing education credits. Students must complete HCA 1000 with a "C" or better or receive permission from the Program Coordinator to enroll in HCA 1110 through 2300.

The externship is individually arranged upon completion of the first 9 courses listed under "Major Requirements." The number of hours required for this clinical experience is dependent upon previous supervisory experience in a health care facility and may range from 180 to 360 clock hours. The program coordinator makes arrangements with the students and the specific health care facility for this externship.

A mandatory criminal history check with fingerprinting and drug screening will be conducted in the semester immediately preceding the start of the externship courses, at the student's expense.

1. Conviction of a felony or conviction of any attempt to commit a felony within the 15 years immediately preceding the date of the criminal history check; or
2. Conviction of a misdemeanor within the 10 years immediately preceding the criminal history check, and/or a positive drug screen will preclude eligibility for enrollment in the externship course(s).

In addition to the regular tuition, Health Care Administration students incur extra costs including, but not limited to; liability insurance, health examination, uniforms, required vaccinations, travel and certification fees.

For further details, contact the Health Care Administration Department at (248) 233-2917.

Additional Program Requirements

- All "Major Requirements" and "Required Supportive Courses" must be completed with a "C" or better.
